

Families of children who have medical complexity are wanted for focus groups.

We are looking to understand how families can get all types of needed care for their children, whether it is in the hospital, school, pharmacy, therapies, or anything in the community where you live.

We are seeking up to ten families of children who have medical complexity.

This includes any child who has at least two chronic conditions and sees at least two specialists of any type.

The focus groups will be held in the first floor Board Room at Women & Children's Hospital of Buffalo on *Tuesday, June 27 at 1pm and Thursday, June 29 at 1pm.*

The focus groups will last for approximately 90 minutes, and participants will receive a \$25 gift card in appreciation for their time.

If you are interested, please contact Nancy Gushue, Division of General Pediatrics, at ngushue@upa.chob.edu or 716.878.7277 by June 15. Additional questions may be directed to Dennis Kuo, MD, MHS, Project Director, at 125 Hodge Avenue, Buffalo, NY 14222, 716.878.1098.
